PROFESSIONAL EXPERIENCE

Microsoft Software and Systems Academy (MSSA)   *July – November 2022*
Cloud Application Development Student
Focused and studied in Cloud Application Development, learning to design, write, build, and support applications and programs. Gained fundamental skills in C#, SQL, CSS, JavaScript, and HTML. Learned conceptual frameworks for Web Applications development, ASP.NET MVC, and Azure Application Development.

Maintenance Management Analyst, U.S. Marine Corps   **Oceanside, CA**
November 2020 – June 2022
- Generated and built reports on Excel to conduct trend analysis for 7 subordinate units' mission readiness, identifying niches to optimize organic maintenance capabilities.
- Collaborated with senior management to implement new policies and procedures for promoting unit growth through efficient maintenance management and cutting maintenance costs down by $10M.
- Oversaw materiel readiness operations for 35,000+ items of equipment, valued at over $180M.

Maintenance Management Chief, U.S Marine Corps   **Oceanside, CA**
March 2020 – October 2020
- Supervised and analyzed maintenance request submissions on a weekly basis ensuring the accuracy of reporting throughout 5 subordinate units.
- Collaborated with senior management on multiple functions including unit success and finance, increasing survey submissions from 60% the previous month to 100% by identifying the pain points of subordinate units' feedback.
- Data management, data cleaning, data organization and created deliverables to present final outcomes to leadership
